EXPERIENCE

TATA CONSULTANCY SERVICES | SYSTEM ENGINEER

May 2025 – Present | Pune, India

- Worked in a **configuration** and **development support team** for **Johnson & Johnson** on enterprise manufacturing systems.
- Contributed to **system configuration**, **instance management**, and **data setup** to support manufacturing workflows and business processes.
- Collaborated with development teams to **build and enhance frontend user interfaces using React.js**.
- Developed **reusable React components**, handled state management, and implemented responsive UI using modern frontend practices.
- Integrated frontend components with **REST APIs** and ensured smooth data flow between UI and backend services.
- Participated in **requirement analysis**, translating business needs into technical solutions for both configuration and UI development.
- Followed **Agile/Scrum methodology**, participating in sprint planning, daily stand-ups, and code reviews.
- Maintained clear **technical documentation** for configurations, UI features, and deployment changes.

HOUSE BANAO | FULL STACK DEVELOPER

Jan 2025 – April 2025 | Gurugram, India

- Developed and maintained the company website and an internal **CRM system** using the **MERN** stack.
- Built **responsive frontend components** using React.js and modern JavaScript, improving usability and performance.
- Implemented **backend REST APIs** for lead management, user handling, and business workflows.
- Designed and optimized **MongoDB schemas** to support CRM functionality and data consistency.
- Collaborated with business stakeholders to understand requirements and deliver **functional, production-ready features** within short timelines.

PROJECTS

SUPPLY SENSE | REACT, TAILWIND CSS, NODE.JS, SUPABASE, POSTGRES SQL

[GitHub](#) | <https://supply-sense.vercel.app/>

- Built a **CRM system with an interactive analytics dashboard** to visualize financial and inventory data for executive decision-making.
- Developed **responsive and modular frontend components** using React and Tailwind CSS for a clean, professional UI.
- Implemented **backend services using Supabase** with PostgreSQL for authentication, role-based access, and data management.
- Designed **structured relational database schemas** in PostgreSQL to support inventory tracking, financial records, and analytics.
- Enabled **data-driven insights** through real-time dashboards, improving visibility into inventory status and financial metrics.

SKILLS

PROGRAMMING

Proficient:

C++ • C • JavaScript • SQL • CSS • HTML

Experienced:

Node • React • Tailwind

Familiar:

Redux • Express • MongoDB • Mongoose • Rest API's • RDBMS • Java • Python

LIBRARIES/Frameworks

React • Node.js • Express • Bootstrap

TOOLS/PLATFORMS

Git • Github • VSCode • PostMan • Camstar/Opcenter

EDUCATION

CHANDIGARH UNIVERSITY

B.E. IN COMPUTER SCIENCE AND ENGINEERING

Aug 2020 - June 2024 | Mohali, India

CGPA: 7.65 / 10.0

E.P. SCHOOL

CLASS XII (RBSE)

Apr 2019 - Mar 2020 | Alwar, India

Percentage: 84.4%

CENTRAL ACADEMY

CLASS X (CBSE)

Apr 2017 - Mar 2018 | Alwar, India

Percentage: 68.8%

CERTIFICATIONS

REACT.JS | (Udemy)

WEB DEVELOPMENT | (Udemy)

TYPESCRIPT ESSENTIALS | (Udemy)

DATA STRUCTURES | (Udemy)
